Satisfactory Rate of Progression on the Tariff Bill.

Schedule A, "Chemicals, Oils and Paints" Disposed Of.

The Schedule of "Metals and Manufactures of Iron and Steel" Takes Up-Matter of "Docking" Members for Absence Discussed in the House.

WASHINGTON, May 18.—A very satisfactory rate of progression on the tariff bill was struck in the senate Friday, and was kept up from noon until the hour of adjournment.

The dozen items that had been left on Schedule A, "Chemicals, Oils and Paints," were taken up and disposed of, and Schedule B, "earths, earthenware and glassware," were taken up and proceeded with to its close.

The next schedule is "metals and manufactures of iron and steel."

The resolution for the daily meeting of the committee on ways and means, and the taking up of the tariff bill at 10:30, was agreed to after a good deal of discussion, in which Mr. Frye (rep., Me.) said that in his opinion all parliamentary methods should be resorted to to defeat the measure, but he had not been able to get the republican side of the senate to take the same view.

Mr. Dolph (R., O.) professed his readiness to unite with the senator from Maine, Mr. Allison (I., Ia.), in denouncing any understanding on the republican side to action on the bill, and said that such a course would act on the individual judgment. Mr. Chandler (R., N. H.) warned democratic senators not to act on the theory that there would be filibustering against the bill.

When the metal schedule was reached, the bill went over for the day, and the session at 10:30 p. m. adjourned.

The first half hour of Friday's session of the house was spent in passing a resolution to give the committee on railways and canals a clerk. That having been accomplished, the legislative, executive and judicial appropriation bill for the year ending June 30, 1873, was taken up in committee of the whole.

Under an agreement reached by the leaders after an hour's skirmishing, general debate on the bill was closed at 3 o'clock, and the house adjourned until after Saturday. The rest of the afternoon was occupied with a discussion of the matter of "docking" members for absent days, which took a wide range.

## LAKES CHURNED

A Dozen or More Fatalities Of Chicago.

Six of a Schooner's Crew Drowned at Milwaukee.

Half a Dozen Schooners Foundered at Chicago. Death of the Schooner and Great Suffering for the Life-Savers—Many Lives saved.

CHICAGO, May 19.—Lake Michigan has been a tempestuous and dangerous sea for months, and has been so since Friday, when it has been sweeping down from the north for the past thirty-six hours. Friday night it is believed that twelve to fifteen lives have been lost along the shore off this city and its suburbs.

The only other point reporting loss of life is Milwaukee, where six of the schooner Cummings' crew were drowned Friday afternoon before they could be rescued by the life-saving crew.

Half a dozen schooners have been dashed to pieces on the city docks during the day, a score or more having almost been lost in an almost hopeless fight against the gale and the huge waves that have swept over them, endangering the lives of those who are still or have been lost.

It has been a day of heroic effort and saving for the life-savers who have scattered along the shore. At least thirty vessels are anchored outside the harbor waiting for the storm to subside. All are more or less damaged and the signals of distress that have appeared among them from time to time during the day have kept the life-savers busy.

Twenty-five or thirty men have been brought in all exhausted and suffering intensely from the exposure and cold. In several cases health arrived too late, and the men found dead in their places of shelter, having been maimed by the cold, and, unable to protect themselves, were almost beaten to death by the furies.

At midnight the storm had not abated, and every hour increases the peril of those on board, which is fast going to the limit, which is expected to be the breaking point.

The life-savers took charge of the schooner, the harpooning boats at their anchors and in imminent danger of being brought into collision with each other, or of being pounded to pieces on the beach.

Scenes of horror that chilled the blood of thousands of spectators were witnessed at the Illinois central depot in the early evening. As the storm increased in violence during the afternoon, the waves grew mountain high, dashing over the breakwater, deluging the tracks and enveloping the passenger train in a spray of spray.

The lives were saved by the crews of the life-saving boats and the tugs of the Chicago companies during the storm.

The life-saving crew was making a third trip to rescue part of the crew of the schooner Lulu, which was fast going to the limit, which is expected to be the breaking point.

All the men were rescued. The last of the seven men were taken from the water three-quarters of an hour after the boat had capsized.

Intermediate League.

KANSAS CITY, May 19.—Six "elite" sedan drivers made their appearance in the city Saturday morning, and Sullivan's counts to hunt for the Taylor brothers, who murdered the Meeks family.

The citizens of these counties are incensed over the probable escape from the prison of the Taylor brothers, and are determined to have them captured at any cost.

It is believed that the murderers can not be found, but must remain tied up here all summer.

A Conditional Reward.

KANSAS CITY, May 19.—The two steamers and the passenger and freight cars of the Missouri Pacific railroad, which were captured by the rebels at the bridge over the Arkansas river, were recovered by the Union forces.

The men who were captured are to be exchanged for the rebels, and the men who were captured are to be exchanged for the rebels.

PLUCK, enterprise and some cash secured us a line of first-class Clothing at less than 50 cents on the dollar.

Our Mr. Heschler attended the great Clothing sale of M. and L. S. Fechheimer & Co., and bought \$7,500 worth of seasonable Men's and Boys' and Children's Clothing AT OUR OWN PRICE.

Our friends generally know a good thing when they see it.

We therefore want you to be on hand and take a look at MEN'S SUITS at \$5.50 to \$7.50 that cost \$10 to manufacture; Men's Suits at \$8.50 to \$10 worth \$15 to \$18; BOYS' and CHILDREN'S SUITS at one half price.

These goods are all new and desirable styles and made and trimmed in a first-class manner.

By Tuesday morning you will see them displayed in our show windows with the prices marked in plain figures.

We secured in this purchase nineteen FULL DRESS SUITS, made of the finest Imported Dress Worsts, all silk lined.

They are made and trimmed equal to best custom work.

You young gentlemen that pay \$15 to \$20 per annum for rental of Dress Suits, come in and see these and learn our prices on them.

This sale will continue until the last garment bought in this purchase is sold.

Terms strictly cash.

PLEASE DON'T ASK TO HAVE ANYTHING CHARGED.
